

- ▶ **Pressure, vacuum and differential switching to very high sensitivity**
- ▶ **Factory set or adjustable actuation setpoint**
- ▶ **Miniature size - ideal for OEM applications**
- ▶ **Wide choice of form factors for maximum installation flexibility**
- ▶ **Long life with high reliability**
- ▶ **UL approved**

Specifications	
Actuation pressure / Setpoint tolerance	See detailed information below
Switch type	Single pole, single throw, normally open (Normally closed - contact Herga)
Contact voltage	30 V max. AC/DC, 120 VAC Neon Lamp load
Current rating	40 mA max. resistive DC
Contact resistance	1Ω or less at 150% of actuation pressure
Proof pressure	See detailed information below
Material	Flame Retardant 10% Glass Filled Polycarbonate, Urethane diaphragm* * Range "A" = Teflon diaphragm as standard
Mechanical life	20 x 10 ⁶ cycles
Temperature range	+4°C to +65°C, Some setpoint deviation may occur throughout the temperature range For increased temperature range of -40 to +96 °C contact us
Approval	UL508 approved. File number NKPZ8.E41523
