

- ▶ Simple Mounting
- ▶ Outstanding repeatability
- ▶ Excellent linearity
- ▶ Plastic- or Aluminium housing
- ▶ Sealed to IP67
- ▶ Elastomer damped wipers

The 28 mm diameter SP2800 series angle sensor features long life conductive plastic technology that is ideal for arduous autosports position feedback applications including sequential gearbox, steering angle, throttle and suspension measurement. Available in durable temperature resistant plastic or aluminium housings, this IP67 rated sensor has an operating temperature range of -40 to +150 °C.

Specifications	
Life expectancy	50 million cycles
Operational speed	120 rpm
Environmental sealing	IP67
Temperature range	-40 to +150 °C
Cable type	Raychem 55. 22 AWG
Cable length	1000 mm
Repeatability	With 6 mm shaft < 0.03° With Push-on coupling < 0.06°
Max. supply voltage	42 VDC

Part Number	Electrical Angle +/- 2°	Linearity %	Housing material	Shaft Type	Nominal resistance kΩ +/- 20%
